AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1-6. (Cancelled)

7. (Currently Amended) Nozzle (1) for injection moulding of plastic materials comprising a generally cylindrical body (2) having an external surface and a first heating resistor (5) wound on said external surface and a second heating resistor (6) wound on said external surface of the body (2),

each of said heating resistors being disposed in a spiral-shaped groove located in said external surface of said generally cylindrical body,

wherein said heating resistors are both housed in the same spiral-shaped groove in a side by side condition at the same radial distance with respect to the cylindrical body.

8. (Currently Amended) Nozzle (1) for injection moulding of plastic materials comprising a generally cylindrical body (2) having an external surface and a first heating resistor (5) wound on said external surface and a second heating resistor (6) wound on said external surface of the body (2),

each of said heating resistors being disposed in a spiral-shaped groove located in said external surface of said generally cylindrical body at the same radial distance with respect to the cylindrical body,

Amendment Under 37 C.F.R. § 1.111
USSN 09/987,749
Attorney Docket Q67214
March 25, 2005

wherein each resistor is provided with a respective autonomous control thermocouple connected thereto.
